DETAILED ACTION

Election/Restrictions

1. Claims 24-43 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 29 June 2004.

Double Patenting

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims 1-23 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-20 of U.S. Patent No. US006006739A. Although the conflicting claims are not identical, they are not patentably distinct from each other because one of ordinary skill recognizes that streets on semiconductor wafers are linear, therefore cutting along a street is equivalent to making a linear cut. Further, "no intervening sever that extends in substantially the same direction as the third substantially linear location being located between the second and third substantially linear locations" (claim 15 of the pending application)

Art Unit: 3723

would have been recognized by one of ordinary skill as an obvious choice of method design, as the step of dicing with or without an intervening sever would result in the same dice (albeit perhaps a different sized dice).

4. Claims 1-23 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 8-26 of U.S. Patent No. US006196096B1. Although the conflicting claims are not identical, they are not patentably distinct from each other because Although the conflicting claims are not identical, they are not patentably distinct from each other because one of ordinary skill recognizes that streets on semiconductor wafers are linear, therefore cutting along a street is equivalent to making a linear cut. Further, "no intervening sever that extends in substantially the same direction as the third substantially linear location being located between the second and third substantially linear locations" (claim 15 of the pending application) would have been recognized by one of ordinary skill as an obvious choice of method design, as the step of dicing with or without an intervening sever would result in the same dice (albeit perhaps a different sized dice).

Terminal Disclaimer

5. The terminal disclaimers filed 29 October 2004 do not comply with 37 CFR 1.321(b) and/or (c) because: An attorney or agent, not of record, is not authorized to sign a terminal disclaimer in the capacity as an attorney or agent acting in a representative capacity as provided by 37 CFR 1.34 (a). See 37 CFR 1.321(b) and/or (c). While Mr. Powers is listed under the customer number as an associate attorney, he is not listed on the declaration as being of record.

C nclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
